

Where the ball actually went: the same depth control video in all nine clips, seed 42

“The ball starts at the far left, travels quickly from left to right across the entire frame, lands near the far right, and continues rolling to the right.”

— the control video's own ball    • frame 0 of the clip    • frame 80

Each box is one 848 × 480 frame: x runs left to right, y top to bottom. One dot is one frame, drawn at the size of the region the tracker located. Grey ribbon: the ball in the control video.

Red: the sentence asking for the opposite of the control.
